RE: Article 6A on your agenda

To whom it may concern in the Town of Killingly

Last year the drainage problems and repairs to a portion of Laurel Drive in Zadora Heights was supposed to be repaired. This was from Cheryl Avenue to 24 Laurel Drive. The portion of this road has been deteriorating for the past several years. The driveways are eroding and sinking due to poor water drainage. The road must be patched and repatched both during summer and winter.

Would you please apprise us as to when the appropriated money will be spent to fix the problems with drainage and repairs.

Thank you in advance.

Sincerely,

Joyce A. Horne
