## **Vitis/Windham Energy Center Public Hearing**

### **Public Concerns**

**Thursday, April 4, 2024**

- Fires → fire department and first responder training and response time
- Off-gassing
- Decibel level
- Where the batteries are developed
- Stormwater run-off/discharge
- Air modeling be completed
- Any facilities close by that have been developed to be able to compare to
- Effects on the environment/land/town
- Benefits to the town, how will the project negatively or positively impact the town
- Long term vegetation buffer management plan
- Going forward, information regarding this project should be distributed out to not just Killingly but other surrounding towns – have more information provided to the public
- Tax impacts – negative or positive to the town
- Eversource's role in this project
- How will this project be pushed through – what is the process? Does the public have any input to whether the project happens or not?
