Economic Development. The Economic Development Office promotes the preservation and development of the Town's industrial and commercial economic base by assisting in the retention and expansion of existing businesses, encouraging new businesses to locate in Killingly and coordinating resources to expand the tax base. The Economic Development Commission is empowered to conduct research into the economic conditions and trends of the Town and to recommend steps to improve the economic condition of the Town.

- Small business information
- Commercial development information
- Industrial development information
- Downtown information
- Industrial Park information
- Business Incentives

The **Economic Development Office** provides this free directory of local businesses for newcomers to the Town of Killingly, as well as for local residents. We want people to be aware of the businesses operating in **Killingly** so everyone can “**Shop Locally**”.

The Business Directory is distributed by the Economic Development Office and listed on our website, www.killinglyct.gov in the Economic Development section of the website. If you would like to add your Killingly business to our directory, call our office or download the form from the **Economic Development** section of our website.

Killingly is a community that had its beginnings around several mill villages which continue to be active community centers with both post offices and volunteer fire departments. Because postal delivery areas overlap fire districts and villages, your mailing address may not be the fire district in which you are located. However, The US Post Offices will deliver mail to all zip codes using Killingly as their town. Call the 911 Coordinator (Assessor's Office) for your fire district name.

Fire Districts - 911

- Attawaugan
- Dayville
- Dyer Manor
- East Killingly
- Orient Heights
- Williamsville
- South Killingly
- Borough of Danielson

Post Offices in Killingly
