Addendum #1

Town of Killingly

RFP
Installation of Playground Grass

AT
OWEN BELL PARK
580 Hartford Pike, Dayville CT 06241

April 22, 2020

Please see clarifications on the above referenced RFP.

Question(s):

1. if you could clarify what is required and how the process works:

   - 10% bid bond
   - Performance and Payment Bonds

Response(s):

1. A bid bond in the amount of 10% of the bid is required to be submitted with the proposal. It can be in the form of a surety bond or a certified bank check made payable to the Town of Killingly. If the lowest responsive bidder (as determined by the Town of Killingly) does not enter into an agreement to perform the work their bond is forfeited. Otherwise the bond is returned to the bidder(s) after award.

   Performance and Payment Bonds for the total value of the RFP are required to insure proper installation, payment of employees and suppliers of materials. (For example, if the total value of the RFP is $10,000 the value of the performance and payment bonds would be $10,000 combined not $10,000 each.) These bonds can be in the form of a surety bond or a certified check. As stated in the RFP they are not required to be submitted with the proposal but upon award of the project. These bonds are returned to the successful bidder after completion of the project.
