The style, material, size, and location of outdoor advertising signs and bill posters within the historic district shall also be under the control of the commission. The commission shall adopt rules of procedure and regulations not inconsistent with the provisions of said statutes and this article. Section 8.1-22 Same - Liaison with other town offices; furnishing Certificates of Appropriateness for properties within the district; Annual Reports

Said commission and other town offices or officers whose areas of concern may overlap or affect each other should maintain liaison for information and coordination in matters with which the commission may be dealing. With particular regard to such liaison between the commission and the building inspector of the town, the latter official will require a certificate of appropriateness from the commission prior to the issuance of any building permit for properties within the historic district which might affect the exterior architectural or visual aspects of such properties.

The commission should make reports at least annually. Such reports may be included in the annual town report and should be issued to all owners of real property in the district. The report should also be available to any other residents of the town. (Ord. of 1-13-87, § 7; Ord. of 3-8-88, § 7; Ord. of 4-12-88, § 7; Ord. of 8-9-88, § 7)

Such standards of criteria shall not be such as to bind the historic district to any uniform or necessarily traditional style in new construction, but shall look both to the protection of the old and to the interest and distinctiveness of those communities in the future when other generations will view styles and developments of the present day also as history.

(Ord. of 1-13-87, § 8; Ord. of 3-8-88, § 8; Ord. of 4-12-88, § 8; Ord. of 8-9-88, § 8)

For the purpose of encouraging the responsiveness, securing the support, and drawing on the resources of interested residents of the historic district who are not members of the historic district commission, and apart from the provision in the Act for formal appeals from the commission decisions by aggrieved parties, and other than the required public hearings by the commission upon applications for certificates of appropriateness, the commission shall hold meetings with residents of the historic district if and when at least fifty (50) per cent of the owners of real property in the district make written petition for such meeting to discuss matters of policy or other matters that may be at issue between property owners and the commission. The commission shall call meetings so requested, shall not be bound by the meetings, but in formulating policy shall be responsive to the sentiments of the community insofar as its best judgment suggests and the powers and limitations derived from the General Statutes permit.
